Subject: Camp Russell

Dear Forestport Planning Board,

I am a property owner in the Hamlet of White Lake, Town of Forestport, New York. Protecting White Lake from invasive species and overcrowding and protecting its water quality are very important to me, my family and the White Lake community. To that end, we request that you condition the approval of the proposed subdivision of the Camp Russell waterfront property (i.e., the 8 lot subdivision) and each of the lots created by the subdivision on the following which should run with the land and be part of the deeds:

1. Each lot shall only be used as a single family residence.
2. Access to White Lake through, over or associated with each lot shall be limited to the owner of such lot and such owner's guests (i.e., friends and family).
3. No motorized watercraft shall be put into the water (i.e., launched) from any of the Lots; provided, for clarity, however, parking and securing motorized watercraft to or in docks, boat lifts and boat houses associated with a Lot will not violate this covenant.

That you for your consideration to this matter.

Sincerely,
Mike and Janet Butler
78 Lake Ridge Heights Drive
Forestport NY 13338

Dear Forestport Planning Board,

I am sure you are receiving several letters regarding the sale of Camp Russell and the forthcoming proposal for subdivisions. I am going to include the letter below. However, along with this, I would like to let you know personally that this matter is very near and dear to me as well as my family. I have a camp in what I've always known to be called the 400 acre tract. This family camp was built the year I was born by my grandfather. Additionally, I have photographs from long before that time of my own mother as small child on the tree covered shores of White Lake before there was even the thought of beaches. I have had the privilege of spending every summer my life and currently have the luxury of living in the White Lake community every summer from June through September as the now owner, along with my siblings.

Seeing Camp Russell sold was heartbreaking, but there is nothing to be done about that now. However, you as the planning board, have the opportunity to be sure, that even with this significant change in ownership, the pristine nature of the lake is preserved. I trust that as residents of the White Lake community, you, too, see the importance of this.

Please consider the requests noted in the letter below:

I am a property owner in the Hamlet of White Lake, Town of Forestport, New York. Protecting White Lake from invasive species and overcrowding and protecting its water quality are very important to me, my family and the White Lake community. To that end, we request that you condition the approval of the proposed subdivision of the Camp Russell waterfront property (i.e., the 8 lot subdivision) and each of the lots created by the subdivision on the following which should run with the land and be part of the deeds:

- That you for your consideration to this matter.

4. Furthermore; we request that consideration of Russell Island to be given consideration to remain as a conservation area, perhaps forever wild to maintain the integrity of White Lakes' natural surroundings.

See you at the meeting.

Regards,

James & Minna Allison
